9. Generate strategies for maintaining motivation during challenging business periods.
10. Create a template for conducting a personal quarterly review alongside business goals.

Bonus: 10 Mega-Prompts for Deep AI Workflows

These are longer, multi-step prompts that guide AI in generating full marketing plans, automation sequences, and advanced business strategies.

1. Create a 7-day email campaign for my new product launch in **[Your Niche]**. Include subject lines, email body copy, and CTAs for each day. The campaign should start with building anticipation, then reveal the offer, address objections, share testimonials, and create urgency before closing.
2. Write a 5-step social media marketing strategy for **[Your Business]** to increase engagement. Include content pillars, posting schedule, engagement tactics, growth strategies, and performance metrics to track. Provide specific post examples for each content pillar.
3. Develop an AI-powered content calendar for the next 3 months for **[Your Business]**. Include blog topics, social media content themes, email newsletter focuses, and how they interconnect. Optimize for both SEO and audience engagement, with specific calls to action for each content piece.
4. Generate an entire chatbot script for my website's customer support. Include greeting messages, responses to FAQs about **[Your Products/Services]**, troubleshooting paths, and escalation protocols for connecting with a human. Make sure the tone matches my brand voice which is **[Brand Voice Description]**.
5. Write a full-length webinar script to educate my audience about **[Topic]**. Structure it with an engaging introduction, 3-5 main teaching points with examples, addressing common objections, a Q&A section anticipating common questions, and a non-pushy call to action for **[Your Offer]**.
6. Create a complete client onboarding system for my **[Service Business]**. Include initial questionnaire, welcome packet content, kickoff call script, milestone check-ins, feedback loops, and offboarding process. Design it to be both efficient and personalized to create an exceptional client experience.
7. Develop a 90-day launch plan for my new **[Product/Service]**. Include pre-launch content strategy, audience warming tactics, launch day sequence, post-launch follow-up, and metrics to track success. Break down specific action items for each week leading up to and following the launch.
8. Design a referral program for my **[Business Type]** including the program structure, rewards, promotional messaging, tracking system, and

implementation steps. Make it attractive to both existing customers and the people they refer to while being profitable for my business.

9. Create a comprehensive content repurposing strategy for maximizing the value of each piece of content I create. Show me how to transform a **[Content Type]** into at least 10 different content pieces across various platforms, with specific steps for each transformation.
10. Build a complete customer journey map for my **[Business]** from initial awareness to becoming a repeat customer and advocate. Include touchpoints, content needs, potential objections, and emotional states at each stage. Then recommend specific tactics and messaging for each stage of the journey.
